

# Global Health and Critique

An International Workshop on the Nature of Critique in Critical Global Health Studies  
University of California, San Francisco

## Program and Participants

Location: UCSF Laurel Heights, Room 263, 3333 California Street

Time: 12 to 6 pm

Date: April 8, 2016

Format: The discussion will be organized around two, pre-circulated papers: Clare Herrick's 'The Post-2015 Landscape: Vested Interests, Corporate Social Responsibility and Public Health Advocacy'; and David Reubi's 'Epidemiological Accountability: Philanthropists, Epidemiologists and Global Health'. The authors will start by introducing the papers and tease out the different concepts of critique that come into play in their papers and research. Participants will then be invited to react to the papers and reflect on the notions of critique which they encounter and use in their own work. Everyone should read the two papers in advance. Come prepared with some talking points that relate your work to the themes you find in the papers in relation to the nature of 'critique' in global health. Not everyone is expected to present their responses, but everyone should be prepared.

Program: 12-1 pm: Lunch  
1-1.20 pm: Short presentation/summaries by David and Clare (10 min each)  
1:20-2:50 pm: First round of short responses (no more than 10 min each)  
2:50-3.50 pm: First part of general discussion  
3.50-4.00 pm: Break  
4.00-5.30: Second round of responses  
5.30-6.30 pm: Second part of general discussion

Vincanne Adams and David Reubi will moderate the first part. Clare Herrick and Tobias Rees will moderate the second part. **No-host** refreshments at Swank, followed by **no-host** dinner at Garibaldi's. **Let Vincanne know if you would like to attend dinner!**

Participants: Vincanne Adams (UCSF), Lawrence Cohen (Berkeley), Raphael Frankfurter (UCSF), Angela Garcia (Stanford), Eduardo Gomez (KCL), Cori Hayden (Berkeley), Clare Herrick (KCL), Kerry Holden (QMUL), Judith Justice (UCSF), Kelly Knight (UCSF), James Pfeiffer (Washington), Peter Redfield (UNC), Tobias Rees (McGill), David Reubi (KCL), Ian Whitmarsh (UCSF).
